

BDS Business Data Service GmbH was founded in 2000 as part of the Business Group Deutschland. As IT service provider the BDS offers consultation and support to their customers concerning all questions regarding hardware or software – ranging from network and computer systems to e-shops and multimedia or web-hosting and hosted exchange packages.

In terms of software BDS is specialized in individually customized software systems for the trade and the production of veneers.

In addition to the TIMBERplus Software BDS developed special hardware products for the veneer business, a handheld and a mobile grading card. Being located in Hamburg, Germany, BDS serves customers in Europe, Asia and America.

TIMBERplus Trading System

Since 2000 BDS Business Data Service GmbH has been successfully involved in the veneer sales and production environment.

Meanwhile, TIMBERplus has grown to an extensive veneer sales system with invoicing and inventory control, grading, customs clearance, pre and post recalculation as well as stock keeping.

Like all other software created by BDS, TIMBERplus sales System was developed in close co-operation with our customers.

So our customers can be sure to receive innovative and practical solutions individually designed for their needs. Thus they can benefit from a crucial advantage.

Conclusion

TIMBERplus is a compelling and attractively priced solution to companies who are forward-turned and want to invest in their business future.

"We have a wide customerbase from local carpenters to worldwide-acting industrial furniture producers. TIMBERplus helps us to serve each of them with their specific needs in a quick and easy to use way."

*Lutz Neukirchner, Managing Director
Ulrich Veneers Hamburg, Germany*

"Even for our small sales team, the various features of TIMBERplus help us to manage our stock easily. Creating sales documents has never been easier. This system is designed for the needs of the veneer business; we can deal with almost every aspect in veneer sales."

*Ralf H. Emde, President
Prime Log & Veneer Corp., Baltimore, USA*

"The detailed reporting feature in TIMBERplus gives us a complete and accurate overview of our business projects. Accurate parcel precalculation is one of the key features to manage a growing business. Even as a non IT-Expert I can get all important figures easily from the system."

*Ronen Roudik, Managing Director
ChinUSA Veneers Mill, Jiashan, China*

"I have worked with several different veneer sales systems. TIMBERplus perfectly fits our needs."

*Julian Velazquez, Sales Manager
K. Heinz Möhring Group GmbH & Co. KG,
Lemgo, Germany*
